

Nilla Nielsen

"Imagine a modern mix of Alanis Morissette, Bob Dylan and Tracy Chapman"

Crazy United (a German review of Higher Ground)

Nilla Nielsen has released five albums and an autobiography. Nilla has played numerous venues and hundreds of concerts the last years, both solo and with her band, touching peoples hearts with her radiant aura, positive energy and warm amazing voice.

Her lyrics are strong and personal, always with a story to tell, may it be personal experiences from her own life, or topics such as politics, the environment, dreams of a better world with more compassion, or quirky lyrics describing difficult or simply happy love stories.

Nilla can be booked as an solo artist, as a duo with her guitarist and with her full band.

"Nilla Nielsen from Helsingborg has five very strong albums all of which, even though they span from bare acoustic pieces to heavier rock songs with a full band, has a crystal clear common denominator. Authenticity, honesty, personality, narrative poetry with strong positions for justice, nature and the environment and not least Nillas amazing voice. "
